Ben,

Thanks for the call and request to utilize our grounds for air support, to fight this fire. As discussed, below are the coordinates for available landing zones your team can utilize:

Ballfield Helipad

DMS: 39° 29' 59.3" N, 105° 6' 25.2" W

DD: 39.4997, -105.107

Elevation: 5730

Gun Range Helipad

DMS: 39° 30' 30.2" N, 105° 6' 27" W

DD: 39.5084, -105.1075

Elevation: 5790

Lake Lucas for Bucket Dips (Telephone Poles do exist but still usable)

DMS: 39° 30' 9" N, 105° 7' 5" W

DD: 39.5025, -105.118

Elevation: 6015

You guys are welcome to use the paved areas near the ballfields and the physical fields themselves. Be advised horses are in the pastures outside the complex. Attached is a quick overview of everything. Thank you for the support!!

Very Respectfully,

Ryan Livingstone
